Recreating and modernizing a space...
resulting in a versatile and organized condo

AMBIENCE DESIGN GROUP
111 Regina Road, Unit 10, Woodbridge, Ontario
905.264.0883 • ambience.ca

Ambience Design Group, located in Vaughan, strives for creativity and inventiveness. They plan, implement and oversee every aspect of the client's home, bringing their vision to life. Founder and design director Josie Abate notes that they specialize in interior design and decorating, space planning, custom home design, renovation planning & implementation.

Shown in these pages is a 1,000-square-foot Leaside condo that was renovated by Ambience Design Group. The design of the condo allowed for the versatility of work, daily living, entertaining and relaxing. Small-scale furniture was used to allow for functionality of the space and to achieve balance and proportion.

The objective was to increase the aesthetics and functionality for the new condo owners. Ambience updated and modernized the space and gave it a touch of understated elegance. As you can see from these images, they were successful in creating a young, fresh style with simple organization and clean use of space. **CL**
